

The FCC, if they are to retain any credibility whatsoever, should stop Sinclair from their in-kind contribution of free air time to the Bush campaign. You've fined Howard Stern and Janet Jackson, now let's hold the real criminals to account. Talk about indecency... Sinclair is demanding its twenty some affiliates to pre-empt prime time programming within weeks of a very important election with a thoroughly de-bunked propoganda film in support of their candidate. Please, do not let this happen. Please.

Thank You.
